Incidents and Crimes of note compared with same period last year

Crime Type	Offences February 2017	Offences February 2016
Housebreaking	5	4
Theft M/V	0	2
Drugs offences	9	7
Assaults	15	11
Breach of the Peace	17	12
Drink / Disqualified Driving	3	1

Notes

1. Common assaults and breaches of the peace have seen an increase. Drugs possession has also increased on the same period last year. However, the detection rate remains high with regard to these crime types.

2. Housebreakings in the Ayr West ward have increased slightly on the same period last year. Vehicle crime has decreased with none reported this past month, however residents must remain vigilant, as there have been some opportunist thefts around Ayr to houses, sheds and cars in recent months.

3. Local police will continue to run a high visibility road safety campaign throughout February until early March to deter speeding and hopefully reduce collisions and the number of people injured or killed on our roads which has unfortunately seen a rise. The rise in drink drivers is a concern and the detection increase may be linked to the additional resources deployed to this road safety campaign.

4. Police Scotland have also launched their 2016 10 year strategy for policing and everyone is invited to contribute their views on webpage **https://consult.scotland.police.uk/consultation/2026**
